- Single Rescuer: Hub, Spinner and Inside Blade Rescue (SR:HSIBR)
- Single Rescuer: Nacelle, Tower and Basement Rescue (SR:NTBR)

The aim of this module is to enable participants to perform rescue operations in a WTG hub, spinner and inside the blade by using industry standard rescue equipment, methods and techniques, exceeding those of GWO Working at Height.

This standard has been developed in response to the demand for recognisable advanced rescue training in the industry and has been prepared in co-operation between the
